

# **PROFESSIONAL CLEANING**

**CATALOG OF HIGH-QUALITY PRODUCTS FOR HYGIENE AND CLEANING**

# ABOUT US

Founded in 1974, **Euroquímica** is nowadays a **national** benchmark in the production and marketing of high-quality cleaning products introduced in **75% of the distribution channel in Spain**.

## R&D AND QUALITY

- Innovating production plants in Toledo and Zaragoza.
- Textile laboratory for carrying out washing tests.
- analysis of control parameters during production, quality control of raw and auxiliar materials, and finished products.
- ISO 9001:2015, ISO14001:2015.

## PRODUCTION FACILITIES

- Automated robot packing lines.
- Optimized production lines.
- New packing line for doypack and ecopack formats.

## WAREHOUSING

- Modernization of warehouse facilities.
- Smart warehousing.

## LOGISTICS

- Strategic logistics poles in Zaragoza and Illescas.
- Good access to the factory to ease logistics operations and movement of goods.

## PRODUCTION

- **Leader in the production of MDD atomized** professional detergents in Spain and France.
- **Extensive experience in formulating atomized powder detergents**, including custom formulas.
- **High and low foam product catalog** suited to user demand.
- **The most flexible offering of custom packaging** on the market.

## OUR STRONG POINTS

- **DETERGENT CRAFTSMEN**
- **CUSTOMER SERVICE**
- **ADAPTATION TO CUSTOMER NEEDS**
- **PERSONALIZED ATTENTION**
- **COMMERCIAL TECHNICAL DEPARTMENT**

# ATOMIZED POWDER DETERGENT

## MANUFACTURING

1

- Our facilities are prepared for **the manufacture of all kinds of atomized detergents**. Monthly production capacity of 2000 tons.

2

- The manufacturing process begins with the weighing and dosing of raw materials according to the selected formula. Later, it is taken to a mixing system in a liquid medium. Once complete mixing has been achieved, the mixture is atomized by passing it with a constant flow high pressure pump through an **atomization tower**.

3

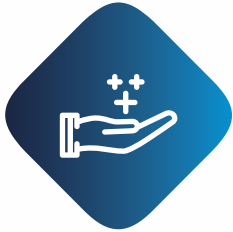

- **The atomization** process consists of dispersing the liquid mixture in the atomization tower, where drying is achieved thanks to a powerful stream of hot air, transforming it into completely homogeneous detergent spheres.

4

- Once the atomized detergent is obtained, depending on the formula, other elements which are unstable at high temperatures are added, **thus achieving a final atomized detergent of excellent quality**.

# ATOMIZED POWDER DETERGENT

## ADVANTAGES

**1**

- **Wide experience** in atomized detergent craftsmanship.

**2**

- **Possibility of manufacturing any formula** adapted to customer needs.

**3**

- The atomization of the detergent **allows the entire product** to be homogeneous, even when producing bulky batches.

**4**

- Due to its physico-chemical properties, atomized powder **has a remarkable solubility** compared to other non-atomized detergents.

**5**

- The production in large batches facilitates the precision in the dosage, and allows the **homogeneity and replicability of the formulas**.

**6**

- The packaged product maintains its properties, as a consequence of having a single granulometry, the different ingredients do not separate, **and its quality remains unchanged even in the long term.**

# HAZARD AND PRECAUTIONARY STATEMENTS

- **H315** Causes skin irritation.
- **H318** Causes serious eye damage.
- **H319** Causes serious eye irritation.
- **P101** If medical advice is needed, have product container or label at hand.
- **P102** Keep out of reach of children.
- **P264** Wash thoroughly after handling.
- **P280** Wear protective gloves/ protective clothing / eye protection / face protection.
- **P302+P352** **IF ON SKIN:** Wash with plenty of water.
- **P305+P351+P338** **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- **P310** Immediately call a poison **CENTER / DOCTOR.**
- **P501** Dispose of content / container according to the separated collection system used in your municipality.

# PUREX CAR WASH

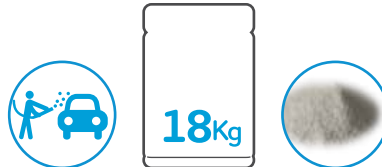

## HIGH ALKALINITY AND EXCELLENT DISSOLUTION

Special for washing car bodies, windows, rims.

Cod. 706052

- ◆ Degreasing capacity.
- ◆ For cleaning all types of dirt (grease, oil).
- ◆ Surfactant with greater foaming power, conceived for cleaning glass and car bodies, very effective compared to other conventional degreasers.
- ◆ Bubble gum fragrance.

Alkalinity  
**31,00%**

### DOSAGE

- Depending on the pressure system and condition of the surface to be washed.

### COMPOSITION

- 5%-15%: Phosphates.
- <5%: Anionic surfactants, non-ionic surfactants and polycarboxylates.
- Perfume.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY
330392	330391	Bag	18 kg	36	On request

**PRECAUTION AND RISK • H318 • P101 • P102 • P280 • P305+P351+P338 • P310 • P501**

**It contains:** Sodium Silicate / Alcohols, C10-16-ethoxylated / Benzenesulfonic Acid, C10-13-Alkyl derivs., Sodium Salt.

# PUREX LAVAUT

## HIGH ALKALINITY AND EXCELENT DISSOLUTION

Cod. 706017

Suitable for heavily soiled vehicles (grease, organic residues, carbonaceous residues).

- ◆ Powerful and energetic degreaser cleaner.
- ◆ For cleaning any type of dirt (grease, oil, carbonaceous residues organic residues, etc.).
- ◆ It combines a great moisturizing and foaming power due to its high alkalinity, compared with other degreaser cleaners, its performance is more effective because the product adheres more to the surfaces to be treated, such as rims, windows ...
- ◆ Suitable for heavily soiled vehicles.

Alkalinity  
**32,50%**

### DOSAGE

- Depending on the pressure system and condition of the surface to be washed.

### COMPOSITION

- 15-30 % : Phosphates.
- 5-15% Non-ionic surfactants <5% Anionic surfactants.
- Perfume.

# PUREX MULTIUSOS

## HIGH FOAM DETERGENT

Cod. 706006

Special formula for cleaning any kind of surfaces.

- ◆ Special for cleaning surfaces in general: effective in glassware, tableware and manual washing of textiles with a high content of difficult stains.
- ◆ Contains in its composition wetting agents and surfactants.
- ◆ Formulated for its use in all types of water.

### DOSAGE

- Dilution 100 g/10 l, or according to soil level.

### COMPOSITION

- 5% - 15% Anionic surfactants.
- <5%: Non-ionic surfactants, optical brightener and perfume.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY

**It contains:** Benzenesulfonic Acid C10-13-Alkyl derivs., Sodium Salt / Sodium Silicate.

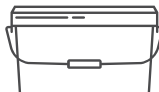

# PUREX TODO 1

## NEW FORMULA ALL-IN-ONE WITH WATER-SOLUBLE FILM

Improved formula.

Cod. 709220

- ◆ **Multifunction wash booster composition.** Manages to descale and effectively remove any type of dirt in all types of water at any temperature.
- ◆ **All-in-one: rinse aid, salt action, protects glass, steel and silverware, descaler.** Quick dissolution and optimized drying.

350402	350401	Bucket	8,8 kg	60	<b>On request</b>

### DOSAGE

- **1 tablet = 1 wash.**

### COMPOSITION

- 5% -15%: Oxygen-based bleaching agents.
- < 5%:Non-ionic surfactants, Polycarboxylates and Phosphonates..
- Enzymes and perfume.

**PRECAUTION AND RISK • H319 • P101 • P102 • P264 • P280 • P305+P351+P338 • P337+P313 • P501**

**It contains:** Subtilisin. Can cause an allergic reaction.

**LAUNDRY  
WASHING  
ECONATUR  
WASHING BOOSTERS**

# PUREX EXTRA BASIC

## ENTRY-LEVEL PRODUCT

Non-deep cleaning of daily clothes.

Cod. 707122

- ♦ **Controlled foam detergent for prewash and machine wash.**
- ♦ **It doesn't contain phosphates. Includes blue speckles. Can be used together with bleach.**

### DOSAGE

WATER HARDNESS	DIRT LEVEL			
	Low	Medium	High	
	Soft	15g/kg	25g/kg	30g/kg
	Medium	25g/kg	30g/kg	35g/kg
	Hard	30g/kg	35g/kg	45g/kg

### COMPOSITION

- < 5% : Soap, anionic surfactants, non-ionic surfactants.
- Optical brightener and perfume .

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY
331303	331187	Handled bag	10kg	72	<b>On request</b>

**It contains:** Sodium Silicate / Benzenesulfonic Acid , C10-13-Alkyl derivs., Sodium Salt.

# PUREX BASIC

## LOW-COST DETERGENT

Indicated for washing lightly soiled clothes.

Cod. 707026

- ◆ Suitable for washing colored cotton and polyester fabric. Can be used in any kind of water hardness due to its high content in sequestrant and dispersant agents.
- ◆ It can be used together with bleach.

## DOSAGE

WATER HARDNESS	DIRT LEVEL			
	Low	Medium	High	
	Soft	10g/kg	20g/kg	25g/kg
	Medium	20g/kg	25g/kg	30g/kg

**It contains:** Sodium Silicate / Benzenesulfonic Acid C10-13-Alkyl derivs., Sodium Salt.

# PUREX BASIC PLUS

## LOW-COST WITH ACTIVE OXYGEN

Indicated for washing medium soiled clothes.

Cod. 707070

- ♦ Complete basic detergent WITH ACTIVE OXYGEN, effective bleaching and stain removal action.
- ♦ Enzymatic product with optical brighteners and oxygen-based bleaching agents.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY
331305	331172	Handled bag	10kg	72	<b>On request</b>

WATER HARDNESS	DIRT LEVEL		
	Low	Medium	High
Soft	10g/kg	15g/kg	20g/kg
Medium	15g/kg	20g/kg	25g/kg
Hard	20g/kg	25g/kg	30g/kg

## COMPOSITION

- < 5%: Anionic surfactants, soap, oxygen-based bleaching agents, non-ionic surfactants and polycarboxylates.
- Optical brighteners, Enzymes, perfume.

**PRECAUTION AND RISK • H318 • P101 • P102 • P280 • P305+P351+P338 • P310 • P501**

# PUREX ENZIMATIC

## CONTAINS ENZYMES

For all types of stains, mainly grease stains.

Cod. 707072

- ◆ Enzymatic washing powder, with high content of surfactants and sequestering agents. Indicated for cleaning many types of fabric ( not recommended for natural fabrics). All types of water.
- ◆ Its high enzyme content facilitates the removal of organic stains.
- ◆ Can be used together with bleach.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY
331307	331171	Handled bag	10kg	72	<b>On request</b>
331306	331107	Bag	10kg	72	<b>Stocked</b>
332618	332430	Bag	20kg	36	<b>Stocked</b>

WATER HARDNESS	DIRT LEVEL			
	Low	Medium	High	
	Soft	10g/kg	10g/kg	15g/kg
	Medium	10g/kg	15g/kg	20g/kg
	Hard	15g/kg	20g/kg	25g/kg

## COMPOSITION

- 5% -15%: Anionic surfactants.
- <5%: Soap, non-ionic surfactants, Zeolites and Polycarboxylates.
- Optical brighteners, Enzymes, perfume (Butylphenyl methylpropional and Linalool)

**PRECAUTION AND RISK • H318 • P101 • P102 • P280 • P305+P351+P338 • P310 • P501**

**It contains:** Benzenesulfonic Acid C10-13-Alkyl derivs., Sodium Salt/Sodium Silicate/Alcohols, C10-16-ethoxylated.

# PUREX COMPLETO

## CONCENTRATED FORMULA

Effective against the hardest stains.

Cod. 707067

- ♦ Washing machine detergent suitable for being used in any kind of water and temperature. It contains TAED that ensures the effectiveness of percarbonate at low temperature.
- ♦ If water has a high hardness, do not exceed 50°C.
- ♦ Powder is completely dragged along machine drawer.

ALKALINITY  
**12,10%**

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY

Hard	15g/kg	20g/kg	25g/kg

## COMPOSITION

- 5% -15%: Anionic surfactants, oxygen-based bleaching agent.
- <5%: Soap, non-ionic surfactants and Polycrboxylates.
- Optical brightener, enzymes, perfume (Butylphenyl methylproponal and Linalool).

PRECAUTION AND RISK • H318 • P101 • P102 • P280 • P305+P351+P338 • P310 • P501

The European Ecological label (Ecolabel) certifies that Purex Ecolabel is an ecological product, and that therefore, the entire production process complies with the Ecolabel regulations. Thus, Purex Ecolabel contributes to reducing adverse environmental effects compared to other products in the same category.

# PUREX ECOLABEL

## ECO-FRIENDLY.

High concentrated formula sustainable with the environment.

Cod. 707203

- ◆ Very concentrated detergent formula.
- ◆ Concentrated detergent and fresh perfume, for pre-washing and washing all types of clothes.
- ◆ Maximum washing temperature 30°C.
- ◆ Excellent efficacy on protein and starch stains even at low temperature and in very hard water (up to 40°TH).
- ◆ Effective on colored and white clothes.
- ◆ It contains oxygen-based bleaching agents.
- ◆ No need of washing booster addition.

## DOSAGE

WATER HARDNESS	DIRT LEVEL			
	Low	Medium	High	
	Soft	5,5 g/kg	9,5 g/kg	14g/kg
	Medium	5,5g/kg	11 g/kg	17g/kg
	Hard	9,5 g/kg	14 g/kg	19,5 g/kg

## COMPOSITION

- 5%-15%: Anionic surfactants, oxygen-based bleaching agents.
- <5%: Non-ionic surfactants, soap, phosphonates and Polycarboxylates.
- Enzymes, optical brighteners, perfume.

# PUREX OXIPER

## OXYGEN-BASED BLEACHING AGENT

Washing booster for greatest whiteness results.

Cod. 710100

- ♦ OXIPER powder is a washing additive to be used in washing machine both with powder and liquid detergent.
- ♦ Effective for washing sheets, aprons and kitchen clothes.
- ♦ Strong whitening capacity due to its high concentration of sodium percarbonate.
- ♦ It can be used during pre-wash cycle to soften stains before a regular wash cycle.
- ♦ Special for white laundry, do not use together with bleach.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY
348301	348300	Bucket	10kg	32	On request
348311	348310	Bag	20 kg	36	On request

### DOSAGE

- **30 g of powder by washing (4,5 kg laundry),** either as an additive in the prewash compartment or together with detergent.

### COMPOSITION

- >30%: Oxygen-based bleaching agents.

**PRECAUTION AND RISK • H318 • P101 • P102 • P280 • P305+P351+P338 • P501**

**It contains:** Sodium carbonate peroxide.

# PUREX JABÓN EN ESCAMAS

## HYPOALLERGENIC SOAP FLAKES

Efficacious in all types of stains.

Cod. 701256

- ◆ Hypoallergenic natural soap flakes, dermatologically tested. Added to detergent, it achieves a natural whiteness as effective as obtained by soap.
- ◆ It can be used both in hand wash and as an additive in washing machine. Temperature must be higher than 40°C.

### DOSAGE

- 10 g of flakes in each washing (4,5 kg Laundry), either as an additive in the prewash compartment or together with detergent.

### COMPOSITION

- >30%: Soap.
- Perfume.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY
380523	380521	Bag	10 kg	36	On request

PRECAUTION AND RISK • P101 • P102 • P501

**HEALTHCARE SECTOR**  
**PUREX HIGIENIZANTE**  
**PUREX ALCALINO**

# PUREX HIGIENIZANTE

## MAXIMUM HYGIENE FOR HOSPITALS, HOTELS, CATERING AND SCHOOLS

Specific for sanitizing textiles and difficult to remove stains.

Cod. 707066

- ♦ Sanitizing detergent is a powerful solution for machine washing laundry, in any tipe of water and temperature (it contains TAED that ensures the effectiveness o percarbonate at low temperature).
- ♦ It is an enzymatic product with optical brighteners and active oxygen, with empowered sanitizing action. Removes pigments, grease and proteins washing at 30°C.

### DOSAGE

WATER HARDNESS	DIRT LEVEL		
	Low	Medium	High
Soft	10 g/kg	15 g/kg	20 g/kg
Medium	15 g/kg	20 g/kg	25 g/kg
Hard	20 g/kg	25 g/kg	30 g/kg

### COMPOSITION

- 5% -15%: Oxygen-based bleaching agents.
- < 5%: Anionic surfactants, non-ionic surfactants, soap and Polycarboxylates.
- Optical brighteners, enzymes, perfume.

Ref. PUREX	Reference	Format	Weight	Bags/pallet	AVAILABILITY

# PUREX ALCALINO

## HIGH EFFICIENCY ALKALINE DETERGENT SPECIAL FOR WORK CLOTHES, TABLECLOTHS, SHEETS

Cod. 707176

Removes the toughest stains.

- ♦ Ultra complete detergent, very effective against difficult to remove stains.
- ♦ Formula with high content of TAED, enzymes, sequestrant agents and active oxygen, which makes it having a high alkalinity.
- ♦ It ensures optimal results in washing very dirty clothes, in any kind of water and at any temperature.

ALKALINITY  
**20,85%**

### DOSAGE

WATER HARDNESS	DIRT LEVEL			
	Low	Medium	High	
	Soft	10g/kg	15g/kg	20g/kg
